

30 August 2019

**TO WHOM IT MAY CONCERN**

False Bay TVET College has made use of the services of Cape Book and College Supplies since 2007.

We put the supply of textbooks out to tender and Cape Book and College Supplies was the successful candidate being awarded a three year contract to supply the textbooks for National Certificate Vocational and Nated (Report 191) Programmes at the various campuses of False Bay College.

We have always found their service to be of a high quality with a keen commitment to personal service. The staff of Cape Book and College Supplies have always communicated with the college and supplied us with information relevant to the TVET sector.

Cape Book and College Supplies has also played an active role in providing assistance to the college in terms of the display of textbooks so that lecturers can engage with the new materials available on the market as well as sponsorship of prizes for our award ceremony.

They have a very good understanding of the TVET sector as well as the complicated processes involved in the procurement issues that colleges need to abide by.

We recommend them highly due to the excellent service and attention to detail in the provision of TVET textbooks.

Yours Sincerely

Melanie Vermaak
